Terms of reference:

- To consider and develop policy on all financial and resource issues relating to GP practices as businesses and GP-specific payments including: pensions, tax and accountancy, premises and geography related costs.
- To consider and develop policy on the financial and resource issues as they relate to GPs as sole traders, partnerships or limited companies.
- To develop policy expertise in all these areas and to advise the negotiators on strategic policy development.
- To ensure that when considering the issues, a 4 nations approach is taken and the policy group ensures that it takes account of the interests of all GPs the Committee represents.
- To liaise with other subcommittees on matters of mutual interest and to work on joint policy as necessary.
- To regularly report to the GPC on its activity.

| Premises Cost Directions                                             | • Maintain pressure to ensure the updated Premises Cost Directions are published  
• Provide guidance to practices on the updated Premises Cost Directions                                                                                                           |
| Premises Commission                                                  | • Ensure the premises commission is established with Department of Health and Social Care and NHS England  
• Work to ensure adequate funding for premises                                                                                                                 |
| NHS Property Services / Community Health Partnerships                | • Engage with NHS PS and CHP about how their service charges are calculated and reach agreement on the way forward with regards to service charges that we can recommend to practices  
• Provide advice and support to practices facing increased rents and service charges  
• Monitor the implementation of the template lease                                                                                                                  |
| Primary Care Support England                                         | • Maintain pressure for primary care support services provided by Capita to be of an appropriate standard, to enable practices to function properly  
• Engage with PCSE/NHS England in the development and roll out of transformation services for primary care support services and ensure they are rolled out to an appropriate timescale |
| GPFV                                                                | • Monitor the implementation of Estates and Technology Transformation Fund as laid out in the GPFV                                                                                                                                                             |
| Records redaction                                                    | • Ensure a records redaction process that is appropriate for GPs and does not increase their workload inappropriately                                                                                                                                              |
| Association of Independent Specialist Medical Accountants           | • Establish working relationship AISMA and identify opportunities for joined up working                                                                                                                                                                              |
| Member support                                                       | • Ensure practices understand how they are currently funded                                                                                                                                                                                                    |
- Produce guidance on issues relating to premises and practice as required
- Ensure queries are answered appropriately and timely
