

COVID-19

VISITING YOUR GP SURGERY

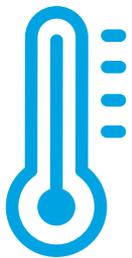

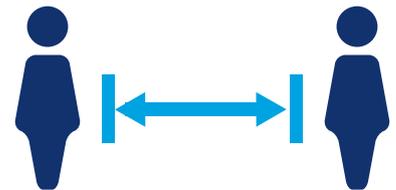

PLEASE WEAR FACE MASKS.
COVID-19 protections are still
in place in this surgery.

In line with **current Government guidance** patients are required to continue to wear a mask in all healthcare settings.

Mask wearing primarily protects others, so everyone being masked – unless exempt – is key to preventing spread of infection.

**CONTINUE TO RESPECT
(2M) SOCIAL DISTANCING**

**Test and isolate if
you have any symptoms.**

It is **essential** that before visiting your GP you get at **PCR test** as soon as possible.
Rapid lateral flow tests should not be used to confirm infection.

It's vital that you and anyone in your household **isolate until you receive your test result**, and for 10 days thereafter if the result is positive.

**WASH/SANITISE
HANDS REGULARLY**
