Is the partner vaccinated?

No

Partner does not get vaccinated

Discuss the reasons for them not being vaccinated and the implications this could have for their role.

Yes

Partner gets vaccinated

Partnership to decide if the partner's role can be done without direct patient contact.

Yes by amending the role and potentially amending the partnership agreement

Partnership negotiates amendments to the partner's role and any impact on their terms and those of the rest of the partnership

No agreement

Review partnership agreement for removal

Prepare recruitment to replace (if necessary, and consider whether needed on a like for like basis or replaced through some other means)

No agreement

Agreement

New roles/responsibilities agreed and amend partnership agreement if required

Yes, without amendment to the role or the partnership agreement

No action required

Decisions made by the partnership must be made in accordance with the terms of the partnership agreement
