

2022 ARM Minutes & appendices I-III (unconfirmed)

[DRAFT – to be confirmed at the 2023 ARM]

Monday 27 June 2022

Dr Latifa Patel, Acting Representative Body Chair, in the chair

The figure in brackets after the number of the minute is the original agenda item number. Please note that A motions were voted on en bloc in the afternoon session on day two and three of the meeting but were not passed.

PROCEDURES, PROCESSES AND TIMETABLES

- | | | |
|-------|---|------------------|
| 1 (1) | Proposed by from the chair: That this meeting approves:-
i) the standing orders (Appendix I of document ARM1A) be adopted as the standing orders of the 2022 "hybrid" meeting;
ii) that the precincts of the meeting be regarded as the whole of the conference centre and those members registered as representatives to the ARM and logged in on 27 to 29 June 2022;
iii) the timetable for elections to be carried out during the meeting as set out in ARM5;
iv) that in accordance with standing order 37, a ballot of representatives will be held on the first day of the ARM to enable them to choose motions (Chosen Motions - "C motions"). A link to the ballot form will be circulated to representatives which should be returned by 12pm on the first day of the ARM, 27 June 2022. | Carried |
| 2 (2) | Proposed from the chair: Minutes of the BMA Annual Representative Meeting held on 13 and 14 September 2021 (ARM12 on the website and on the ARM app). | Confirmed |
| 3 (3) | Proposed from the chair: That committee, council and board meeting reports for the session 2021-22 are available from the website and on the ARM app. | Received |

Order of business

- | | | |
|-------|---|----------------|
| 4 (4) | Proposed from the chair: That the business be taken in the order and at the times indicated below:- | Carried |
|-------|---|----------------|

Monday 27 June 2022 - AM

08:55 Reflection

09:00 Welcome and opening of the meeting (items 1-6)

09:18 One minute's silence in remembrance

09:20 Keynote address by the BMA council chair, Dr Chaand Nagpaul

09:45 Pandemic preparedness and response (items 7-9)

10:30 Culture, inclusion and diversity (items 10-11)

11:00 Break

11:15 Workforce (items 12-14)

12:00 Pensions (items 15-16)

12:30 Doctors' pay and contracts (items 17-19)

13:15 Session closes

Monday 27 June 2022 - PM

14:30 Speeches for the candidates in the election of the Treasurer,
Representative Body Chair

and Deputy Representative Body Chair

15:15 Science, health and society (items 20-21)

15:45 Break

16:00 Safe doctors, safer patients (items 22-24)
16:45 Medicine and government (item 25)
17:00 Forensic and secure environments (item 26)
17:15 Articles and Bye-laws (items 27-32)
17:45 Close of the meeting

Tuesday 28 June 2022 - AM

08:55 Reflection
09:00 Professional regulation, appraisal and the General Medical Council (item 33)
09:15 Retired members (page 14, item 34)
09:30 Health Information, management and information technology (item 35)
09:45 National Health Service (items 36-38)
10:30 Wales (item 39)
10:45 Motion on appointment of the BMA president for 2023-2024 session (item 40)
10:50 Installation of the president
11:00 Break
11:15 General practice (items 41-42)
11:45 BMA Structure and function (items 43-44)
12:20 Annual General Meeting (AGM)
12:30 Session closes

Tuesday 28 June 2022 - PM

13:45 Medical ethics and human rights (items 45-46)
14:15 Northern Ireland (item 47)
14:30 AFC (item 48)
14:45 International (items 49-52)
15:45 Break
16:00 Council chair Q&A
16:15 Junior doctors (items 53-54)
16:45 Staff, associate specialists and specialty doctors (items 55-56)
17:15 'A' motions (items 57-69)
17:30 Close of the meeting

Wednesday 29 June 2022 - AM

08:55 Reflection
09:00 Finances of the Association (items 70-73)
09:30 Treasurer Q&A
09:45 Public health medicine (items 74-76)
10:30 Break

10:45 Community and mental health (items 77-78)
11:15 Training and education (items 79-81)
12:00 Session closes

Wednesday 29 June 2022 - PM

13:00 Medical Students (items 82-83)
13:30 Medical academic staff (item 84)
13:45 Motions arising from the ARM
14:15 Break
14:30 Motions arising from the ARM (continued)
15:45 Closing business (item 85)
16:00 Close of the meeting

BMA policy

- | | | | |
|-------|---|-----------------|--|
| 5 (5) | Proposed from the chair: That this meeting approves the recommendations for which policy be lapsed as indicated on document ARM10 (on the website). | Carried | |
| 6 (6) | Proposed from the chair: That the BMA acting representative body chair will notify the meeting where items being considered by the meeting would, if approved, supersede existing policy and that such policies would be so marked in the policy book, and recommended to the subsequent ARM to be formally lapsed. | Received | |

PANDEMIC PREPAREDNESS AND RESPONSE

- | | | | |
|-------|--|----------------|----|
| 7 (7) | Proposed by Dr Pamela Martin: That this meeting believes that Covid-19 has not gone away and calls on the BMA to lobby for:-
i) free high quality appropriate PPE for NHS workers, including in primary care;
ii) free lateral flow testing for NHS and social care staff;
iii) free PCR testing for people with symptoms;
iv) full funding for ongoing comprehensive Office for National Statistics household surveillance;
v) support for self-isolation including raising statutory sick pay.
vi) regular Covid-19 vaccine boosters available for all health and social care staff particularly those who are in direct patient contact situations. | Carried | UK |
| 8 (8) | Proposed by Dr Adrian Farrell: That this meeting calls on the UK Secretary of State for Health and those of the devolved nations to act via regulation and funding to ensure the safety of staff and patients from continuing Covid risk and future local outbreaks. Specifically, we call for:-
i) regulation and funding for mandatory rapid and reliable Covid 19 testing for all Emergency Department patients likely to be admitted;
ii) institution and funding of additional staffed bed capacity to isolate Covid positive patients, reducing and preventing iatrogenic Covid-19 outbreaks;
iii) continued funding of asymptomatic staff testing and rapid symptomatic testing in both Primary and Secondary care to enable maintenance of services to patients, Covid recovery and alleviation of NHS waiting lists. | Carried | UK |
| 9 (9) | Proposed by Dr JS Bamrah: That this meeting:-
i) demands that the Covid inquiry by Baroness Hallett takes evidence from a wide range of stakeholders, that all the evidence is made public, and that the final report is truly independent without any interference from government;
ii) expects that the Covid inquiry by Baroness Hallett, will address the issues of deaths of BAME healthcare workers as well as BAME individuals in the general population and asks the BMA to highlight these matters in its own submission. | Carried | UK |

CULTURE, INCLUSION AND DIVERSITY

- | | | | |
|---------|---|--|----|
| 10 (10) | Proposed by Lara Akinnawonu: That this meeting recognises that there exists a mistrust of the medical establishment among certain religious and racial minorities, demonstrated by high rates of vaccine hesitancy among Black, Black British and Muslim-identifying adults. In light of the increased burden of Covid-19 among the aforementioned communities, we call upon the BMA to:-
i) acknowledge that the basis for this mistrust cannot solely be attributed to misinformation or lack of education;
ii) take accountability for the contribution the UK medical establishment has played in creating this mistrust, by acknowledging the history of unethical healthcare research in Black populations, the under-representation of minorities in clinical trials, and experience of discrimination in the NHS; | Carried in parts. Parts carried: i, iii. Parts lost: ii | UK |
|---------|---|--|----|

	<p>iii) implore NHS trusts and health boards to focus specifically on building trust with these communities, through engaging with culturally relevant public health outreach, forging partnerships with local religious and community leaders, and working with policymakers and researchers to support development of community trust-building practices.</p>		
11 (11)	<p>Proposed by Dr Stephen Millar: That this meeting is concerned by reports of NHS managers telling some staff to adopt a work name that is more easily pronounceable, asserts that any such request is totally unacceptable, and mandates the BMA to object robustly if such practices are ever repeated.</p>	Carried	UK
	WORKFORCE		
12 (12)	<p>Proposed by Dr Jacky Davis: That this meeting notes that the NHS faces the biggest backlog of cases since records began but at the same time has no workforce plan to deal with them. We demand that the governments:-</p> <ul style="list-style-type: none"> i) urgently puts in place a workforce plan to help stabilise the NHS and deal with the accumulated backlog; ii) drops unrealistic targets that put impossible pressures on existing NHS staff; iii) take the money that is destined to pay the private sector to do NHS work and invests it in expanding the capacity of the NHS; iv) invest money in recruiting and training NHS staff; v) invest money to help retain the NHS staff we already have. 	Carried	UK
13 (13)	<p>Proposed by Mr Ian McNab: That this meeting is extremely concerned by the unacceptably high levels of doctor burnout in GMC and BMA surveys and demands that UK Governments must require all NHS employers to:-</p> <ul style="list-style-type: none"> i) conduct exit interviews using an evidence-based tool that has been specifically designed to identify stressors in junior doctors and can help pinpoint drivers for resignations (e.g. the DEStress instrument); ii) take immediate action to alleviate the stressors that are driving junior doctor burnout and resignations; iii) publish the anonymised results of exit interviews via an open access national database, to allow the analysis of the drivers for burnout and resignation, and to enable job applicants to compare employment conditions at different NHS employers; iv) create and subscribe to new national NHS platforms that share employees' views on their employing organisations' management and culture (similar to the Glassdoor's "Best Places to Work" UK webpage), to further incentivise employers to respond to concerns." 	Carried as amended by minute 14	UK
14	<p>Amendment proposed by Dr Alex Freeman: Remove the word 'junior' from part ii) of the motion which would then read:</p> <p>'That this meeting is extremely concerned by the unacceptably high levels of doctor burnout in GMC and BMA surveys and demands that UK Governments must require all NHS employers to:-</p> <ul style="list-style-type: none"> i) conduct exit interviews using an evidence-based tool that has been specifically designed to identify stressors in junior doctors and can help pinpoint drivers for resignations (e.g. the DEStress instrument); ii) take immediate action to alleviate the stressors that are driving doctor burnout and resignations; iii) publish the anonymised results of exit interviews via an open access national database, to allow the analysis of the drivers for burnout and resignation, and to enable job applicants to compare employment conditions at different NHS employers; iv) create and subscribe to new national NHS platforms that share employees' views on 		

their employing organisations' management and culture (similar to the Glasdoor's "Best Places to Work" UK webpage), to further incentivise employers to respond to concerns.'

15 (14) Proposed by Dr George Rae: That this meeting is seriously concerned that in the 'Delivery plan for tackling the COVID-19 backlog of elective care' there is no plan to increase NHS workforce members and demands:-
 i) the government now urgently recognises this serious omission and stops neglecting calls for independent workforce assessments as also advocated by the Health and Social Care Select Committee;
 ii) council enters into discussion with the Secretary of State for Health and Social Care and ensures the government urgently now recognises and enacts urgently on this parlous workforce situation.

Carried as amended by minute 16 UK

16 Amendment: Change designation of the motion from 'UK' to 'England'. EN

PENSIONS

17 (15) Proposed by Dr Balendra Kumar: That this meeting demands that the BMA ensures that the remedial measures following the McCloud judgement should be expedited and that all senior doctors be able to assess their tax liability with the recalculated annual benefit statements for the remedy period (2015-2022).

Carried UK

18 (16) Proposed by Mr Devender Khurana: That this meeting notes the significant number of senior doctors who are coming off the pension scheme and still working for the NHS to deliver high quality care to the UK population due to punitive pension taxation and insists all NHS employers offer pension recycling.

Carried EN

DOCTORS' PAY AND CONTRACTS

19 (17) Proposed by Ms Emma Runswick: That this meeting notes with horror that all doctors' pay has fallen against RPI since 2008 to the tune of up to 30%. This represents a career earnings loss amounting to millions of pounds for each of us. We mandate the BMA to achieve pay restoration to 2007 value for its members within the next 5 years and to evidence its progress against this aim at every ARM until restoration is achieved.

Carried as amended by minute 20 UK

20 Amendment proposed by Ms Emma Runswick: change '2007' to '2008' so the motion reads:
 'That this meeting notes with horror that all doctors' pay has fallen against RPI since 2008 to the tune of up to 30%. This represents a career earnings loss amounting to millions of pounds for each of us. We mandate the BMA to achieve pay restoration to 2007 2008 value for its members within the next 5 years and to evidence its progress against this aim at every ARM until restoration is achieved.'

21 (18) Proposed by Dr Lisa Rampersand: That this meeting deplores the poor working conditions faced by many Resident Medical Officers and similar postholders, welcomes initial work by the member relations team to address this and calls on the BMA to deepen its work to improve the treatment of these doctors by:-
 i) launching a co-ordinated campaign which aims to improve their terms and conditions and recruit them into membership;
 ii) opening dialogue with the main employing organisations and their main customers to press for improvements;
 iii) encouraging employers to use only agencies that provide fair terms and safe conditions;

Carried UK

- iv) persuading employers to convert these roles to more suitable national or locally standardised contracts where required for longer term use;
- v) continuing to call for proper regulation of the ethical international recruitment of doctors by these agencies.

22 (19)	<p>Proposed by Dr Christine Clayton: That this meeting welcomes proposals in the People Plan, noted in NHS Employers' advice that employers and unions should work together to develop options for flexible working, but is concerned that flexible working is still not sufficiently supported at local level to make this a viable option for many doctors and calls for:-</p> <ul style="list-style-type: none"> i) urgent work to be undertaken with NHS Employers and Health Education England to produce guidance on shift patterns, multi-site working and contracts for medical staff with additional caring responsibilities, supported by a national campaign; ii) LNCs to work with Guardians of Safe Working Hours and Trusts to identify medical staff who have additional caring responsibilities and proactively support this cohort with reasonable adjustments to include job offers with reasonable working patterns and working locations, to be agreed in advance with individuals. 	Carried	EN
---------	---	----------------	----

SCIENCE, HEALTH AND SOCIETY

23 (20)	<p>Proposed by Dr Mike Kemp: That this meeting notes the significant challenges faced by the parents of premature babies and calls for the BMA to actively lobby for:</p> <ul style="list-style-type: none"> i) urgent implementation to the proposed changes to statutory parental pay for the parents of premature babies announced in March 2020; ii) access to paid statutory parental leave for the full duration of the inpatient neonatal admission for both parents; iii) change to legislation so that non-compulsory maternity leave does not have to start until the point of the baby's discharge from the neonatal admission; iv) occupational parental leave for prematurity for NHS staff to be paid at the level of full pay for the duration of the inpatient neonatal admission; v) paternity leave not to be consumed in the provision of any parental leave for prematurity for the inpatient stay, to allow the other parent to take this on or after discharge. 	Carried in parts. Parts carried: i, ii and iv. Carried as a reference: iii and v.	UK
---------	--	--	----

24 (21)	<p>Proposed by Dr George Rae: That this meeting acknowledges the Levelling Up agenda but is seriously concerned there has been no reduction over the last five years in the number of years people in the UK live in poor health and believes:-</p> <ul style="list-style-type: none"> i) it is vital the UK governments make a fundamental change in direction to achieve its pledge of increasing healthy life expectancy; ii) the UK governments must now urgently create social and economic conditions to enable healthier lives through assured jobs, satisfactory, acceptable housing, first class education and adequate incomes; iii) health considerations must now be factored into all UK governments department policies. 	Carried	UK
---------	---	----------------	----

SAFE DOCTORS, SAFER PATIENTS

25 (22)	<p>Proposed by Dr Samuel Parker: That this meeting recognises the damage inflicted on healthcare workers by abusive patients and relatives, and malicious complaints, and calls for:-</p> <ul style="list-style-type: none"> i) greater awareness of the prevalence of abuse towards healthcare staff; ii) greater support should be offered to clinicians who are victim of abuse and malicious complaints; iii) routine provision of self-defence training should be available for all clinical staff; 	Carried in parts. Parts carried: i, ii, vi and v. Parts lost: iii	UK
---------	---	--	----

- iv) stiffer sentences for those who attack healthcare workers;
v) support for healthcare workers who are victim of slanderous / malicious complaints.
- 26 (23) Proposed by Dr Peter Holden: That this meeting is extremely concerned at the current psychological health and wellbeing of doctors, many of whom have sustained moral injury, and mandates the BMA to negotiate for a “right to be disconnected” giving doctors proper downtime to recover and recuperate. **Carried** UK
- 27 (24) Proposed by Mr David Randall: That this meeting:- **Carried** UK
- i) believes that all health and social care workers should be vaccinated against common serious and communicable diseases unless medically contraindicated;
 - ii) calls on the BMA to lobby for a targeted approach addressing vaccine hesitancy in different groups of health and social care workers;
 - iii) believes that all principles of informed consent apply to the offer of vaccination to health and social care workers;
 - iv) opposes the legally mandated vaccination of healthcare workers;
 - v) does not believe vaccination should be a blanket condition of employment for health and social care workers;
 - vi) calls on employers to work with unvaccinated staff to minimise risk to patients and other staff whilst maintaining as far as possible individuals' terms and conditions of employment.

MEDICINE AND GOVERNMENT

- 28 (25) Proposed by Dr Kevin O'Kane: That this meeting reiterates our opposition to the Health & Care Bill as the wrong bill at the wrong time. In particular, we call on BMA Council to continue to lobby for:- **Carried as amended by minute 29** EN
- i) the instigation of a duty on the Secretary of State for Health to have transparent regular independent workforce planning;
 - ii) removal of the Secretary of State's new executive powers vis a vis service reconfigurations and tendering and awarding of contracts;
 - iii) the extension of transparency rules to ensure corporate providers cannot unduly influence key priorities & commissioning decisions;
 - iv) the re-instatement of a universal, comprehensive, publicly funded, publicly provided NHS.
- 29 Amendment from the proposer: Amend the stem of the motion as follows:
‘That this meeting reiterates our opposition to the Health & Care Act as the wrong legislation at the wrong time. In particular, we call on BMA Council to continue to lobby for:-’ so the motion now reads:
‘That this meeting reiterates our opposition to the Health & Care Act as the wrong legislation at the wrong time. In particular, we call on BMA Council to continue to lobby for:-
- i) the instigation of a duty on the Secretary of State for Health to have transparent regular independent workforce planning;
 - ii) removal of the Secretary of State's new executive powers vis a vis service reconfigurations and tendering and awarding of contracts;
 - iii) the extension of transparency rules to ensure corporate providers cannot unduly influence key priorities & commissioning decisions;
 - iv) the re-instatement of a universal, comprehensive, publicly funded, publicly provided NHS.’

FORENSIC AND SECURE ENVIRONMENTS

- 30 (26) Proposed by Dr John Firth: That this meeting believes that there is a dwindling availability of pathologists to carry out post-mortem examinations at the request of Her Majesty's Coroners in England and Wales. The vast majority of these autopsies are carried out by histopathologists (coroners' pathologists). Most of the work for coroners is not usually conducted under their formal contracts or job plans, but independently. In order to avoid a complete collapse of the service and given that the fee for autopsy work, paid by the local authority, has not increased in line with inflation over decades this meeting:-
- i) demands that the UK Government names the government department to take responsibility for this part of the service;
 - ii) calls for the BMA to negotiate a substantial rise in the fees associated with coroners post-mortems in England and Wales;
 - iii) calls on the government to adequately fund this through the local authorities in England and Wales.
- Carried as amended by minute 31** EN WA

- 31 Amendment proposed by Dr John Firth:
- In the stem of the motion, change the words 'paid by the local authority' to 'paid by the relevant authorities' and in part iii change the words 'local authorities' to 'relevant authorities' so the motion now reads:
- 'That this meeting believes that there is a dwindling availability of pathologists to carry out post-mortem examinations at the request of Her Majesty's Coroners in England and Wales. The vast majority of these autopsies are carried out by histopathologists (coroners' pathologists). Most of the work for coroners is not usually conducted under their formal contracts or job plans, but independently. In order to avoid a complete collapse of the service and given that the fee for autopsy work, paid by the relevant authorities, has not increased in line with inflation over decades this meeting:-
- i) demands that the UK Government names the government department to take responsibility for this part of the service;
 - ii) calls for the BMA to negotiate a substantial rise in the fees associated with coroners postmortems in England and Wales;
 - iii) calls on the government to adequately fund this through the relevant authorities in England and Wales.'

ARTICLES AND BYE-LAWS

Articles

- 32 (27) Proposed by Dr Krishan Aggarwal: That the Representative Body approve the recommended changes to articles 14 (3) (a) & (b) of the association as set out in appendix II of document ARM 1A/AGM3 and recommends the changes to the article to the Annual General Meeting for approval. **Carried**
- 33 (28) Proposed by Dr Krishan Aggarwal: That the Representative Body approve the recommended changes to article 72 of the association as set out in appendix II of document ARM 1A/AGM3 and recommends the changes to the article to the Annual General Meeting for approval. **Carried**
- 34 (29) Proposed by Dr Krishan Aggarwal: That the Representative Body approve the recommended changes to article 79 (1) of the association as set out in appendix II of document ARM 1A/AGM3 and recommends the changes to the article to the Annual General Meeting for approval. **Lost**

35 (30) Proposed by Dr Krishan Aggarwal: That the Representative Body approve the recommended changes to article 85 (1) of the association as set out in appendix II of document ARM 1A/AGM3 and recommends the changes to the article to the Annual General Meeting for approval. **Carried**

36 (31) Proposed by Dr Krishan Aggarwal: That the Representative Body approve the recommended changes to article 85 (2) of the association as set out in appendix II of document ARM 1A/AGM3 and recommends the changes to the article to the Annual General Meeting for approval. **Carried**

Bye-laws

37 (32) Proposed by Dr Krishan Aggarwal: That the bye-laws of the association be amended as follows:- **Carried**
i) changes to bye-laws part 5 committees and other bodies of the association in the manner shown in appendix III of document ARM1A;
ii) changes to the bye-law schedules in the manner shown in appendix III of document ARM1A.

(NB: This motion is the usual ARM bye-law proposals regarding the 'standard' or 'routine' changes to the bye-laws (such as changes of names of committees and councils, membership thereof, terms of reference etc.) that have been proposed by those committees or officers; and have been scrutinised and ultimately approved as part of the routine business of the organisation committee and subsequently approved by council).

Tuesday 28 June 2022

Dr Latifa Patel, Acting Representative Body Chair, in the chair

PROFESSIONAL REGULATION, APPRAISAL AND THE GENERAL MEDICAL COUNCIL

38 (33) Proposed by Dr Tamasin Knight: That this meeting calls on the BMA to demand that the GMC fitness to practice procedures:- **Carried** UK
i) focus investigations on referrals alleging significant breaches of Good Medical Practice;
ii) conduct all investigations in a more timely manner than is currently the case;
iii) do not impose sanctions on vulnerable doctors in order to send a message to the wider medical profession;
iv) commit to trauma-informed practice, recognising the impact of their investigations on subjects;
v) commit to, at the very least, direct fact finding with the subjects of their investigations rather than relying entirely on 3rd party contributions to make their decisions.

RETIRED MEMBERS

39 (34) Proposed by Dr Russell Walshaw: That this meeting notes that as doctors retire earlier than in previous years, they are not continuing their membership of the Association and calls on the BMA to negotiate more benefits for retired members that will attract them to continue with their subscriptions and for the Association to continue to call on the experience and expertise. **Carried** UK

HEALTH INFORMATION MANAGEMENT AND INFORMATION TECHNOLOGY

- 40 (35) Proposed by Dr Penelope Jarrett: That this meeting recognises the successful aspects of remote working initiated during the pandemic and the inadequacy in both number and quality of in-hospital technology set-ups to enable remote meetings/teaching etc and:-
- i) believes that there needs to be significant investment in fit-for-purpose digital technology;
 - ii) calls on the BMA to campaign for investment in hardware, software and IT support to enable remote working;
 - iii) demands that the BMA negotiate for better provision of quiet places with a computer setup which will allow full engagement (audio-visual) with such meetings within short distances of members' place of work.

Carried UK

NATIONAL HEALTH SERVICE

- 41 (36) Proposed by Dr JS Bamrah: That this meeting believes the NHS initiative on a 'Net Zero Health Service' is laudable in addressing the serious health problems that have arisen through climate change and asks:-
- i) to know in clear terms how the BMA aims to achieve a similar target;
 - ii) the NHS within the four nations to give regular reports on how targets are being achieved;
 - iii) each government to commit funds to help achieve the net zero targets.

Carried UK

- 42 (37) Proposed by Dr Becky Acres: That this meeting insists that waiting lists are not an opening in the NHS for the private sector. We are concerned that outsourcing (or in-sourcing) risks detriment to our members' training, pay and conditions and to patients' quality and continuity of care. We ask the BMA:-
- i) to publish its outsourcing report widely among politicians, ICSs, patient/interest groups and other healthcare leaders to sound the alarm over the risks of outsourcing to England's NHS;
 - ii) to insist in the strongest possible terms that this work is extra-contractual and ensure members are given highly favourable terms (including pay) for it;
 - iii) to ensure that there is no detriment to training due to waiting list work because no training today means no senior doctors tomorrow.

Carried EN

- 43 (38) Proposed by Mr Devender Khurana: That this meeting recommends that all ICS boards should have representation from LNC and LMCs to ensure clinical input in future plans for service delivery.

Carried EN

WALES

- 44 (39) Proposed by Dr Farookh Jishi: That there is a recruitment crisis in primary care in Wales that needs urgent action by the Welsh Government by way of improving terms and conditions of service and use of incentives to attract applicants in addition to increasing training places at undergraduate and post graduate levels.

Carried WA

APPOINTMENT OF THE BMA PRESIDENT

- 45 (40) Proposed from the chair: That Professor Sir Ian Gilmore be appointed BMA president for the session 2023-24.

Carried

GENERAL PRACTICE

- 46 (41) Proposed by Dr Jacky Applebee: That this meeting supports GPs fighting to defend the GMS contract and NHS independent contractor status. The long-term GP-patient relationship and the right for GPs to control their workload in a safe way, is essential for the future of general practice. We applaud the South Staffordshire

Carried EN

motion passed at the 2021 LMC conference which called for GPCE to negotiate the end of the Primary Care Networks (PCNs) from 2023 as they ‘pose an existential threat to independent contractor status’ and this meeting:-

- i) calls on GPCE and the BMA to organise the withdrawal of GP practices from the PCNs by 2023;
- ii) calls for PCN funding to be moved into the core contract;
- iii) instructs GPC England to act upon the GP ballot of 2021 and to organise opposition to the imposition of the new contract including industrial action if necessary.

- | | | | |
|---------|---|--|----|
| 47 (42) | Proposed by Dr Ellioe Singer: That this meeting recognises that health care delivery in general practice is adversely impacted by the shortcomings of existing GP estates, including insufficient consultation rooms and meeting rooms and:- | Carried as amended by minute 48 | UK |
| | <ul style="list-style-type: none"> i) calls on the NHS in each of the four nations to investigate the impact of current GP estate limitations on the effective safe delivery of care and the recruitment of both clinical and non-clinical GP staff; ii) calls on the NHS in each of the four nations to investigate the impact of the limited number of disability adapted GP consultation rooms, on the clinical care of disabled patients; iii) instructs GPC to negotiate with the NHS in each of the four nations, to urgently provide much needed new funding to develop GP estates. | | |
| 48 | Rider proposed by Dr Euan Strachan-Orr:
‘iv) in line with increasing recruitment of GP trainees, ensure GP Trainees have adequate space to practise and work in, as a fully integrated member of the practice team, at the standard a fully qualified GP would expect.’ | | |

BMA STRUCTURE AND FUNCTION

- | | | | |
|---------|--|----------------|----|
| 49 (43) | Proposed by Dr Grant Ingrams: That this meeting believes that the BMA has failed to learn from the Romney report with many members still unable to feel proud of their union and is failing to value and support female members and members from minority groups including BAME, IMG and locum doctors. The ARM insists that the BMA produces an annual report to ARM to demonstrate improvement in all these areas. | Carried | UK |
| 50 (44) | Proposed by Dr Lucy-Jane Davis: That this meeting notes the shift to remote working and reduced commuting has had a positive impact on the environment and calls on the BMA to build on this by:- | Carried | UK |
| | <ul style="list-style-type: none"> i) continuing to invest in remote/hybrid meeting models with a view to reducing carbon footprint of meetings, whilst still working effectively and humanely; ii) asking the Board of Science to explore the environmental impact of these changes, with a focus on engagement and education both in the BMA and within the NHS; iii) developing new models for creating supportive networks for new and existing representatives which do not depend on face to face meetings. | | |

MEDICAL ETHICS AND HUMAN RIGHTS

- | | | | |
|---------|---|----------------|----|
| 51 (45) | Proposed by Milan Kapoor: That this meeting recognises that the Stormont Assembly has deliberately failed to commission sufficient and safe abortion services within Northern Ireland, endangering the lives of women and depriving them of their rights, under the Human Rights Act 1998. This meeting calls on the BMA to:- | Carried | NI |
| | <ul style="list-style-type: none"> i) recognise that the Northern Ireland Assembly has been negligent in failing to commission and adequately fund abortion services which are accessible to all women; | | |

	<p>ii) recognise that the Northern Ireland Assembly has denied women their right to abortion services under the Human Rights Act 1998; and</p> <p>iii) lobby the Stormont Assembly along with the Northern Ireland Human Rights Commission to introduce safe and accessible abortion services.</p>		
52 (46)	<p>Proposed by Dr JS Barmrah: That this meeting fully accepts the judgement of the Uyghur Tribunal that the Peoples Republic of China (PRC) has committed genocide, crimes against humanity and torture of ethnic minorities, and expects the BMA to condemn these actions. The Association must work with other medical organisations and the UK Government to impose appropriate sanctions against the PRC.</p> <p>NORTHERN IRELAND</p>	Carried	UK
53 (47)	<p>Proposed by Dr Tom Black: BMA NI highlighted the failure of the department of health to prioritise patient safety issues in Northern Ireland. We call on the department of health in Northern Ireland to develop a system of patient safety to ensure that the ‘system’ knows what is happening’ by establishing a patient safety commissioner in Northern Ireland:-</p> <p>i) to ensure oversight of patient safety issues;</p> <p>ii) to develop valid metrics to monitor progress and compare performance in patient safety;</p> <p>iii) to identify system weakness and subsequent improvements;</p> <p>iv) to improve reporting mechanisms and the surrounding infrastructure.</p> <p>AFC</p>	Carried	NI
54 (48)	<p>Proposed by Dr Mark Weir: That this meeting recognises the massive contribution of armed forces doctors to the national Covid-19 pandemic response. It does not, however, believe the 0% pay uplift awarded to medical officers in 2021 acknowledges their efforts or sacrifices at all. Accordingly, ARM:-</p> <p>i) denounces the pay pause, and believes it is unacceptable to ignore the contribution of uniformed doctors to the pandemic effort, when the same rationale was used to provide the NHS an exemption from this pause;</p> <p>ii) calls for an inflationary award that also takes into account the uplift awarded to NHS colleagues last year.</p> <p>INTERNATIONAL</p>	Carried	UK
55 (49)	<p>Proposed by Dr Samuel Parker: That this meeting notes the devastating and unnecessary war in Ukraine that has resulted in thousands of deaths and millions of displaced individuals. This meeting:-</p> <p>i) recognises the significant biopsychosocial impact on victims of armed conflict;</p> <p>ii) condemns the targeting of children, pregnant women, and frail elderly in situations of armed conflict;</p> <p>iii) demands that armed services avoid intentionally targeting medical facilities and schools;</p> <p>iv) seeks greater assistance from the UK Government to support refugees fleeing from the Ukrainian conflict;</p> <p>v) calls for greater provision of training for Ukrainian healthcare staff;</p> <p>vi) calls for all parties to peacefully end hostilities.</p>	Carried	UK
56 (50)	<p>Proposed by Dr Andrew Wilson: That this meeting celebrates and values the contribution of international medical graduates to our workforce and calls on the UK government to:-</p> <p>i) support the option of relocation of the close family of NHS workers to the UK;</p>	Carried	UK

- ii) facilitate tier 2 sponsorship / skilled worker status funding for all practices across the country;
- iii) mandate a five year minimum visa award to doctors entering UK GP training programmes;
- iv) extend the duration of any existing tier 2 visa (or health and social care visa) before the planned CCT date without having trainees to secure employment for visa sponsorship;
- v) lobby the Driver and Vehicle Standards Agency (DVSA) to prioritise IMG GP trainees who do not hold a UK driving license for driving tests.

57 (51) Proposed by Dr Raghu Kota: That this meeting calls upon the BMA to continue its pressure on the home office in changing the stringent requirements of Adult Dependent Relative visa. **Carried** UK

58 (52) Proposed by Dr James Murphy: That this meeting is ashamed of the UK Government's approach to and management of refugees and asylum seekers which jeopardises their physical & mental health, and:- **Carried as amended by minute 59** UK

- i) believes that this Government's approach has seriously damaged the reputation of our country;
- ii) demands that the barriers (eg visa applications) preventing refugees from escaping from war affected regions should be dismantled forthwith;
- iii) asks the BMA to campaign for the whole asylum application system to be overhauled to match the more humane European systems.

59 Amendment proposed by Dr Ciaran Kennedy: add new part iii) 'demands that the UK Government's inhumane plan to remove refugees and asylum seekers to Rwanda be repealed.'

Re-number other parts so current part iii) becomes part iv) so the motion reads: 'That this meeting is ashamed of the UK Government's approach to and management of refugees and asylum seekers which jeopardises their physical & mental health, and:-

- i) believes that this Government's approach has seriously damaged the reputation of our country;
- ii) demands that the barriers (eg visa applications) preventing refugees from escaping from war affected regions should be dismantled forthwith;
- iii) demands that the UK Government's inhumane plan to remove refugees and asylum seekers to Rwanda be repealed;
- iv) asks the BMA to campaign for the whole asylum application system to be overhauled to match the more humane European systems.'

JUNIOR DOCTORS

60 (53) Proposed by Dr Christian Linares: That this meeting believes that the general framework of exception reporting as set out in the 2016 Junior Doctors' Contract is flawed, and asks the BMA to negotiate to remove the involvement of the Clinical or Educational Supervisor of the doctor submitting the report, in favour of an impartial reviewer such as a College Tutor or other administrator. **Carried as a reference** UK

61 (54) Proposed by Mr Roshan Lal: That this meeting notes with concern that the UK Foundation Priority Programmes contain inaccurate descriptions of rotations for doctors applying, and that changes are made to rotations without consultation with doctors, after rotations have already been accepted/allocated. There are inconsistencies between regions in terms of whether mutually agreed rotation swaps between Foundation Year (FY) doctors is possible or facilitated. This meeting believes that:- **Carried** UK

- i) there should be equity between regions in allowing flexibility for mutually agreed rotation swaps between FY doctors;
- ii) there should be transparency with accurate descriptions of rotations;
- iii) rotations should not be changed once the rotation has been offered and accepted by the FY doctor.

STAFF, ASSOCIATE SPECIALISTS AND SPECIALTY DOCTORS

- | | | | |
|---------|---|----------------|----------------|
| 62 (55) | Proposed by Dr Montila Ghosh: That this meeting congratulates the BMA on negotiating the 2021 contracts for SAS doctors and regarding the Specialist contract demands that the BMA further negotiates with all stakeholders (NHS Employers in England and the equivalent bodies in the nations, and the royal colleges) to:-
i) ensure that the career progression of Specialty doctors is considered;
ii) not leave issues to consideration of local departments and business policies;
iii) make sure internal applications be allowed if the job specifications are met;
iv) lobby employers and Health Boards to create Specialist posts;
v) ensure there is a robust mechanism to support Specialty doctors;
vi) create guidance and pathways for Specialty doctors to help them attain the Specialist status. | Carried | EN
NI
WA |
| 63 (56) | Proposed by Dr Chinnaya Thiyagarajan: That this meeting requests the BMA to lobby/urge:-
i) all stakeholders to involve the SAS group in the planning of the nationwide post-pandemic recovery;
ii) all NHS employers to involve all branches of practice equitably for local planning and implementation of the post-pandemic backlog work. | Carried | UK |

'A' MOTIONS

- | | | |
|---------|--|--|
| 64 (57) | Proposed from the chair: That the motions marked with an 'A' (items 58-63 and 65-69) have been assessed by the agenda committee to be either existing policy or sufficiently uncontentious to be voted on without debate and published in the policy book, unless challenged at this point in the meeting. | Following exclusion of motion 64 which had its 'A' taken off, was lost. |
|---------|--|--|

Wednesday 29 June 2022

Dr Latifa Patel, Acting Representative Body Chair, in the chair

FINANCES OF THE ASSOCIATION

- | | | | |
|---------|--|-----------------|----|
| 65 (70) | Proposed from the chair: That the report from the BMA treasurer, Dr Trevor Pickersgill, for the session 2022-23 is available from the website. | Received | |
| 66 (71) | Proposed from the chair: That the subscriptions outlined in document ARM1B (appendix V) be approved from 1 October 2022. | Carried | |
| 67 (72) | Proposed from the chair: That the annual report of the directors, treasurer's report and financial statements for the year ended 31 December 2021 as published on the website be approved. | Carried | |
| 68 (73) | Proposed by Mr Atef El-Kholy: That this meeting asks the BMA to offer free membership to International Medical Graduates for the first year of U.K. residency similar to the offer to first year medical students. | Carried | UK |

PUBLIC HEALTH MEDICINE

69 (74)	<p>Proposed by Dr Ellis Harold Ian Friedman: That this meeting recognises the large burden of morbidity and possibly mortality caused by harmful gambling. The regulation of gambling is inadequate, neither preventing people especially young persons becoming gamblers nor effectively managing people who have developed problems. The meeting calls for the following action:-</p> <ul style="list-style-type: none">i) coroners should be allowed to cite gambling as a factor in suicides;ii) clinicians, including medical students, should receive more training on the identification and management of gambling as a health risk;iii) the capacity of the fifteen NHS clinics should be expanded significantly and must include a specific pathway for doctors with gambling disorder.	Carried	EN
70 (75)	<p>Proposed by Mr Patrick Davey: That this meeting finds it unacceptable that the life expectancy of UK men is 5 years less than women. The failure of the UK government and the NHS to tackle this inequality is discriminatory and we insist that the government:-</p> <ul style="list-style-type: none">i) provides new ring fenced funding to appropriate institutes to explore the reasons for the differences, and how they might be mitigated;ii) educate the public about lifestyle measures that mitigate these differences;iii) provides new ring fenced funding for pharmacological and psychological treatments that would reduce these inequalities;iv) take measures necessary to remove this gender disadvantage within 20 years.	Lost	UK
71 (76)	<p>Proposed by Dr Andrew Green: That this meeting believes that the pandemic has demonstrated the need for professional independence, adequate capacity and greater investment across Public Health services and is very concerned that funding for these services is being cut at a time when there is an urgent need to maintain adequate health protection structures with pandemic surge capacity, address health inequalities, prevent ill health and optimise local services to tackle the NHS backlog. This meeting therefore calls on the UK governments to:-</p> <ul style="list-style-type: none">i) increase the local public health grant in England by an additional £1.4 bn per year by 2024/25, so that the wider determinants of ill health can be addressed at local level and vital primary and secondary prevention services, such as those supporting smoking cessation, can be restored;ii) as a minimum, maintain the levels of funding which went to PHE, in the financial settlement for the new organisations of UKHSA and OHID, so that appropriate health intelligence, health protection and health improvement services can be established centrally, regionally and locally;iii) uphold and not obstruct the professional duty of Public Health Consultants to speak out, advise and publish freely in the interests of the public's health;iv) advise all ICBs to appoint a properly qualified and appropriately registered Public Health Consultant, to ensure that the needs of the whole ICS population are considered and prioritised effectively in commissioning health and social care services;v) ensure that health is considered in policy development across all government departments, including mandating health impact assessments for all new policies.	Carried	EN

[NB: Motion submitted by public health medicine agenda committee and not public health medicine conference as the conference is scheduled after the publication of the ARM agenda]

Dr Amit Kochhar, Deputy Representative Body Chair, in the chair

COMMUNITY AND MENTAL HEALTH

72 (77) Proposed by Dr Samuel Parker: Adverse childhood experiences (ACEs) and trauma have profound negative effects on physical and mental health. Recent Office for National Statistics reports highlight one in five adults in England and Wales experienced abuse before aged 16 years old, and that nearly 75% of children on the child protection register reside in households where domestic abuse occurs. Failure to recognise and tackle these issues contributes to their continuation into the next generation. That this meeting calls for:-

- i) promotion of regularly updated adult and child safeguarding training to be provided for all health and social care practitioners and students;
- ii) increased provision of safe houses for survivors of domestic abuse, their children, and their pets;
- iii) integrative care pathways to be in place to support children exposed to early life adversity transitioning into adulthood;
- iv) a collaborative approach to be fostered between services to ensure that children and adults who have experienced ACEs are adequately supported with their health and social care needs;
- v) increased teaching in schools, so that children are aware of the signs of domestic abuse, exploitation, and grooming, and that they can safely report concerns to teachers, health and social care professionals, and the police.

Carried UK

73 (78) Proposed by Dr Andrew Molodynski: That this meeting is concerned that the ‘hidden’ pandemic of mental illness will overwhelm mental health and primary care services for years to come. We urge the BMA to lobby NHS organisations to:-

- i) immediately accept that services are not able to cope with demand and offer NICE guidance based mental health care to many who need it;
- ii) urgently commission and commence independent work to identify the scale of this problem;
- iii) develop coherent and whole system approaches, with resources, to reduce the number of people unable to access evidence based care and implement these changes;
- iv) commit to regular independent monitoring of progress.

Carried as amended by minute 74 UK

74 Amendment: In part i) of the motion, change the words ‘demand and offer NICE guidance’ to ‘demand or offer NICE guidance’ so part i) of the motion now reads:

- i) immediately accept that services are not able to cope with demand or offer NICE guidance based mental health care to many who need it;

TRAINING AND EDUCATION

75 (79) Proposed by Dr John Firth: That this meeting believes whilst the BMA actively opposed the exit of the UK from the EU, in view of the UK having left the EU this meeting notes Her Majesty’s Government is proposing significant divergence of currently uniform European regulations. This meeting demands the UK governments:-

- i) maintain parity with are European neighbours on the length of time of undergraduate medical education;
- ii) maintain association with Euratom on a par with Switzerland;
- iii) ensure for the future of the Health Service in this country and Europe the mutual recognition of qualifications;
- iv) do not change the current position of the Working Time Regulations as it applies to the Medical Profession.

Carried in parts. Parts carried: ii, iii, iv. Carried as a reference: i. UK

76 (80)	Proposed by Husam Khalil: That this meeting believes that the NHS should not be a monopoly postgraduate medical training provider and that private and “any qualified provider” status clinics and hospitals should be supported to provide accredited training opportunities to doctors at postgraduate level.	Lost	UK
77 (81)	Proposed by Dr Zwesty Rimba: That this meeting recognises that educational supervisors do not require formal postgraduate education to enable them to act in their job role. We call on the BMA to lobby Health Education England to provide funding for educational supervisors to attain postgraduate certificates in health education if they do not already hold an equivalent level of teaching qualification.	Lost	EN

Dr Latifa Patel, Acting Representative Body Chair, in the chair

MEDICAL STUDENTS

78 (82)	Proposed by Dr Kevin O'Kane: That this meeting calls upon the BMA to lobby the government to make it a legal requirement that all UK final year medical school graduates that apply to the foundation programme and pass the Situation Judgment Test be guaranteed a place on the UK Foundation Programme.	Carried as amended by minute 79	UK
79	Amendment proposed by Miss Becky Bates: ‘That this meeting calls upon the BMA to lobby all governments in the UK to make it a legal requirement that all UK final year medical school graduates that apply to the foundation programme, and are assessed to have satisfactory situational judgement, be guaranteed a place on the UK Foundation Programme upon achievement of their Primary Medical Qualification.’		
80 (83)	Proposed by Ms Becky Bates: That this meeting recognises the emotional, physical, financial, and mental cost of studying medicine, particularly for students from some widening participation backgrounds. It recognises that working LTFT is an established reasonable adjustment for doctors with health conditions or caring responsibilities. It notes also the heavy burden working to fund living costs and pay fees on top of full-time studies can place on students without access to sufficient funding. It calls on the BMA to lobby medical schools to widen participation through the development of reasonable pathways to study all medical degrees part-time.	Carried	UK

MEDICAL ACADEMIC STAFF

81 (84)	Proposed by Dr Samuel Parker: That this meeting recognises the importance of clinical-based research in promoting health and wellbeing of patients and the public, and that:- i) clinician researchers are in a unique position to link clinical priorities with academic research; ii) the BMA should look to promote clinical research, and consider inviting universities and Deaneries to share details of clinical academic trainees, in order that this branch of practice can be highlighted by the BMA; iii) the BMA should further promote clinical research by opening up grants for doctors wanting to undertake a Ph.D. or M.D; iv) regrettably, clinical academics are particularly vulnerable to bullying by supervisors, particularly those working within subspecialty training, and that additional support should be provided for trainees in difficulty; v) academic fraud is a serious matter, and that clinicians should be aware of the impact of submitting misleading papers or falsifying authorship.	Carried in parts as amended by minute 82. Parts carried: i, ii, iv,v, vi, Parts lost: iii.	UK
---------	---	---	----

- 82 Amendment proposed by Dr Samuel Parker:
 ‘That this meeting recognises the importance of clinical-based research in promoting health and wellbeing of patients and the public, and that:-
 i) clinician researchers are in a unique position to link clinical priorities with academic research;
 ii) the BMA should look to promote clinical research and highlight the importance of clinical academic training;
 iii) the BMA should further promote clinical research by opening up grants for doctors preparing to undertake a Ph.D. or M.D;
 iv) consider asking universities and Deaneries to invite clinical academic trainees to share their details with the BMA, and for the BMA to highlight this branch of practice.
 v) regrettably, clinical academics are particularly vulnerable to bullying by supervisors, particularly those working within subspecialty training, and that additional support should be advertised and provided for trainees in difficulty;
 vi) academic fraud is a serious matter, and that clinicians should be aware of the impact of submitting misleading papers or falsifying authorship.’

CHOSEN MOTIONS

- | | | | |
|----------|--|---|----|
| 83 (228) | Proposed by Dr Dominic Whitehouse: That this meeting deplores the current lack of adequately funded and equitably provided high quality palliative care across the UK, with its unjust reliance on charitable giving. It applauds the government for starting to address this, by accepting Baroness Finlay’s amendment to the Health and Care Bill mandating commissioning of palliative care, as NHS policy, and:-
i) demands this legislation is backed up by a funded policy for comprehensive hospice, community, and hospital specialist palliative care services nationwide, along with imposition of a duty on all NHS commissioners to ensure these services are made available to all who need them;
ii) opposes any attempt to legalise assisted dying in a climate of such under-resourcing of quality end of life care. | Carried in parts. Parts carried: i. Parts lost: ii | EN |
| 84 (261) | Proposed by Dr Becky Acres: That this meeting believes, given the high proportion of inactive and dormant divisions, it is no longer feasible for the division to be the foundation organisational unit of the BMA. We therefore mandate the organisation committee to develop a proposal for removing a reliance on divisions from the articles and byelaws of the Association whilst ensuring local support and organisation of members continues. This proposal must be brought to ARM 2023 for consideration. | Carried | UK |
| 85 (265) | Proposed by Ms Emma Runswick: That this meeting asks the BMA to allow changes to the standing orders of BMA policy conferences to amplify the member voice that:-
i) enable BMA Officers to contextualise and inform at the start of debate, rather than comment at the end;
ii) prevent BMA Officers from using any “top table” or “Officer comment” time to steer;
iii) ensure movement through the agenda by placing similar time limits on all speakers including BMA Officers. | Carried in parts. Parts carried: ii, iii. Parts lost: i. | UK |
| 86 (270) | Proposed by Dr Grant Ingrams: That this meeting identifies that the BMA has a severe problem with politics by complaints: the quality of our debate is being stifled by vexatious complaints while serious infractions are going unpunished. We mandate that the BMA:- | Carried | UK |

- i) produces a report on the number of complaints initiated, investigated and upheld; the cost of this to members; the spread of sanctions applied and any other actions taken in response to the ARM (as a paper) on an annual basis;
- ii) institutes a time-limit for each section of the complaints process (limit to be agreed with the resolution process working group within 8 weeks);
- iii) commissions the working group on the resolution process to consider a process for identifying and addressing vexatious complaints which will be brought to ARM 2023 for discussion;
- iv) takes responsibility for supporting members involved in the complaints process and for making restitution to members where complaints have proven unfounded;
- v) educates members in the clearest and strongest terms possible that BMA complaints are not to be used as a threat against members or staff.

87 (300) Proposed by Dr Becky Acres: That this meeting notes with concern that there seems to be a glass ceiling for women in the BMA: there has never been a female Chair of BMA Council or Treasurer; and that the recommendations of the Romney review do not appear to be progressing towards full implementation. We call for:-

- i) an investigation into the progress of the BMA against the outcomes of the Romney review. Reporting to ARM 2023;
- ii) a professional independent of the BMA to conduct rigorous exit interviews with women who leave/have left senior BMA positions with the aim of identifying points for future organisational change.

Carried UK

PART 2 - STAFF, ASSOCIATE SPECIALISTS AND SPECIALTY DOCTORS

88 (336) Proposed by Dr Maw Linn: That this meeting believes that the BMA provides poor representation to Locally Employed Doctors (LEDs) and particularly to International Medical Graduates in such posts. We are also losing out on engaging doctors who are experienced and effective trade union organisers. We instruct the BMA to:-

- i) form a working group including representatives from Consultant, SAS and Junior Doctor branches of practice to decide how to investigate this lacuna in our support for our members and to remediate this problem reporting to Organisation Committee in preparation for a package of measures to be approved at ARM 2023;
- ii) immediately instigate and publicise improved support for LEDs in individual local contract negotiations to avoid employers taking advantage of this vulnerable worker group;
- iii) immediately negotiate for all LEDs to have access to exception reporting, time-sheets, monitoring or any other mechanism to report and be paid for overwork and lack of development in their roles and support them to access these systems;
- iv) negotiate such that Locally Employed Doctors are not employed in "Trust Grade" posts for lengthy periods of time if they are eligible for Specialty Doctor or Associate Specialist posts.

Carried UK

EMERGENCY MOTIONS

89 (EM1) Proposed by Dr Marina Politis: That this meeting believes that the US Supreme Court decision to overturn Roe vs Wade removes the Constitutional right to safe, legal abortion. This decision will cause immeasurable harm by allowing states to remove reproductive rights, which are deemed essential human rights by the UN. This meeting calls upon the BMA to:-

- i) Continue to condemn the overturning of Roe vs Wade and lobby all UK governments to condemn this decision;
- ii) Lobby the GMC, all UK governments and other stakeholders to stand in solidarity with healthcare workers providing safe abortion care including

Carried UK

disregarding any criminal charges or convictions for providing safe abortion care when considering UK registration applications;

- iii) Work with the American Medical Association to support doctors providing medical and surgical abortions in the US;
- iv) Support the provision of free & safe abortion care to all nationals seeking this in the UK without subjecting them to the overseas patient upfront tariff, regardless of borders;
- v) Call on all UK Governments to strengthen their own abortion provision and decriminalise abortion;
- vi) Support the Safe Access (Abortion Services) Scotland Bill, which would introduce safe access zone around abortion clinics and healthcare settings that provide abortion services through creation of a criminal offence of contravening the zone and lobby to have this approach adopted on a UK basis.

'A' MOTIONS

90 (57) Proposed from the chair: That the motions marked with an 'A' (items 58-63 and 65-69) have been assessed by the agenda committee to be either existing policy or sufficiently uncontroversial to be voted on without debate and published in the policy book, unless challenged at this point in the meeting. **Second vote was lost.**

CLOSING BUSINESS

91 (85) Proposed by Dr Chaand Nagpaul: That the BMA representative body chair be empowered on behalf of the meeting to approve the minutes of the meeting. **Carried**
