November 2022

Dear Professor Zion Hagay,

Inhumane treatment of children and youths in Israeli prisons, amounting to torture

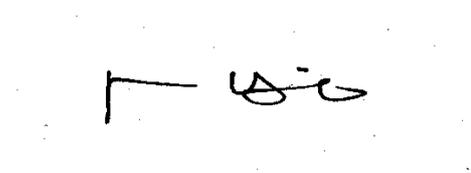

Many thanks for your response. We understand and appreciate that you are currently discussing the issue with the IPS and reviewing their guidelines for solitary confinement. We look forward to your update in that regard.

We note your statement on your position that sometimes solitary confinement is necessary to protect the prisoner or others, and that guidelines for minors in solitary confinement varies with age. In relation to the use of solitary confinement for minors, we would be very interested in discussing your approach here, particularly given the World Medical Association's clear [opposition](#) to this practice?

We would be interested in setting up a meeting with you to further understand your perspective and context. Do let us know if and when this would be possible for you.

We look forward to hearing from you.

Yours sincerely,

Co-Chief executive officers: Neeta Major and Rachel Podolak
